**Light and crystal expert Kirby Seid will guide us on a series of Awakened Journeys of light, sound and self discovery.** The Light Labyrinth™ uses cutting edge technology of colorful light and brainwave frequencies projected into spectacular quartz crystals. With light and music journeys you can access profound inner healing and higher guidance. The Light Labyrinth is designed for unique trance experience into lucid dream worlds, the rich feedback system from our unconscious and Higher conscious, where imagination and creation originate.

**Kirby Seid will also discuss the fascinating life work of the renowned FR. Nick Nocerino, who was one of the original founders of crystal skull research.** Sha Na Ra, is the name of an ancient authentic quartz skull discovered by the late FR. Nick Nocerino. The Crystal Skull has been used and revered by ancient traditions throughout human history. As the symbol of the vessel for human consciousness, various native cultures have used carved stone skulls in ceremonies representing the passage and evolution of the human existence to higher planes. Many people have had deep visions, intuitions, past life recalls, and messages from the unseen through this cherished artifact.
